

GROUP PLANS

GROUP PLAN SUMMARY					
	Group 1	Group 2	Group 3	Group 4	Total # of Groups that identified Element
Benches	x				1
Bike Trail		x			1
Block Wall			x		1
Bocce Court	x				1
Bridge	x	x			2
Climbing Boulder				x	1
Climbing Wall				x	1
Cover Large Channel			x		1
Cover Small Channel	x		x		2
Drinking Fountain w/Pet Bowl	x				1
Flowers			x		1
Gazebo	x	x		x	3
Heavy Foliage		x			1
Informal Garden	x	x	x	x	4
Lights (Trail)		x			1
Parking Lower	x				1
Parking Upper		x			1
Picnic Pads				x	1
Rain Garden	x		x	x	3
Swings		x			1
Tot Lot	x	x	x	x	4
Trails		x	x		2
Water Feature		x			1
Wrought Iron Fence			x		1

FEEDBACK WORKSHOP

On May 9th, 2013 at 6:30 pm at the request of Lennar, RJM conducted a feedback workshop. 21 community members were present, many of whom participated in the first park design workshop. The purpose of the feedback workshop was to review the community input process and unveil the conceptual landscape plan that was developed through the community impute process.

Zachary Mueting of RJM Design Group facilitated the feedback workshop. The project setting, history of the site planning and development was reviewed similar to the prior design workshop. Following the history Zachary led the attendees through a summary of the consensus items that were collected from the site awareness tour, group discussions, as well as group design plans. Each plan was reviewed for the consensus elements and their relationship to the conceptual landscape plan. The final illustrative representing the community consensus design is illustrated below.
